The disciplinary **vision** of BSS is to catalyse and to overcome the growing intolerance of narrow identity, blind fundamentalism, political instability, cultural erosion and adverse civic management at all level.

The prospective **goal** of BSS to enable the deprive sections of the society towards collective partnership and nation building exercises for their rights, equality, justice and freedom of voice. The question mark of actual social acceptance is always debating. We celebrate 45<sup>rd</sup> birthday ceremony of our institution. But about our basement we are steel interim in our journey. Our self assessment is ongoing.
